RUSSIANS GAIN IN THE SOUTH

Drive Austro-German Force
Across the Styry River,
Near Lutsch.

London, Sept. 24.—While the Germans report further successes in their campaign against Dvinsk, Russian gains at the other extreme of the front have resulted, it is reported, in the evacuation of the Voynian fortresses of Lutsch by the Austrians and the withdrawal from a considerable section of conquered territory of the armies of Field Marshal von Mackensen.

Russia is believed to be putting all the strength she can muster into the campaign in eastern Galicia and Volhynia, in an effort to influence the Balkan states.

No confirmation of the evacuation of the fortress of Lutsch has been received. The fortress, together with that of Dubno, was taken by the Austro-Germans after the fall of Brest-Litovsk.

Take 4000 Prisoners.
A late dispatch from Petrograd says:

"The battle north of Lutsch was a great success for the Russians, who, after capturing 4000 prisoners, occupied the town of Lutsch."

Berlin tonight admits that von Mackensen has been forced to fall back across the Oginski canal and Jasoldia river before the menace of a Russian encircling movement. The Austrians admit that they have been compelled to retreat across the Styry but claim the repulse of Russian attacks along the rest of the front.

Von Hindenburg, in the north, continued his steady progress toward Dvinsk, according to the German official report, while Prince Leopold's Bavarian forces have broken the Russian resistance on the central front, and are advancing in a northwesterly direction.

More than 1000 prisoners were taken by von Hindenburg northeast of Smolna, the German troops storming the advanced defenses of Dvinsk at this point. Further north the Germans have recaptured two villages from which they were forced to withdraw several days ago.

The Germans are still trying desperately to cut off part of the Russian forces which are retreating from Vilna, but heavy flank attacks in the region of Novo Volia are admitted by Berlin to have failed of the success expected, the Germans losing two guns through a Russian counter offensive. Berlin still puts much faith in the ability of Prince Leopold's Bavarians to encircle part of the Russians in the Minsk district.

AMERICANS FIRE ON THE MEXICANS

Band of Looters Cause a Fight
on Boundary Near
Progreso.

Brownsville, Texas, Sept. 24.—The firing of arms by several hundred Mexicans on the Mexican side of the Rio Grande today to cover the retreat of 70 to 80 Mexicans who today looted and set fire to a store at Progreso, Texas, 35 miles west of here, was told in an official report tonight made by Major Edward Anderson of the Twelfth cavalry.

Private Henry W. Stubblefield of Big Stone Gap, Va., was killed and Captain C. V. P. Anderson wounded in the arm by the Mexicans at Progreso. Earlier reports that Private Kennedy also was injured, proved incorrect. At least two Mexicans are known to have been killed.

Tonight three detachments of Troops B and C of the Twelfth cavalry are stationed in the vicinity of the Texas fight. Two thousand shots are said to have been fired by the Mexicans on the south side of the river, while the others were escaping from the American side.

1000 Shots Fired.
About one thousand shots were fired by the Americans at the Mexicans as they were crossing the Rio Grande resulting in killing two Mexicans in boats, while several more were reported hit as they made their way in the direction of safety on the Mexican side.

The Mexican band of seventy or eighty, first attacked and looted the store of Florence Saenz at Progreso at daybreak. While these operations were in progress a detachment of Troop C, Twelfth cavalry, numbering twelve men, came to Progreso from the bank of the river, where they spent the night. Private Stubblefield stepped on the porch of the store. As he did so two shots were fired from the interior of the building, both striking Stubblefield in the body, killing him instantly. The soldiers were not aware of the presence of the Mexicans.

Mexicans Flee.
The Mexicans immediately fled from the place, leaving their loot behind. They turned toward the river, with the cavalrymen in pursuit, both sides keeping up a steady fire. Four of the Americans' horses were shot.

DYNAMITE FOUND IN POSTOFFICE

Box Consigned to Italian Address Heavily Wrapped in Heavy Manila Paper.

New York, Sept. 24.—Eight sticks of dynamite, weighing twelve pounds, were found in a package in the foreign branch postoffice here today. The package was consigned at Napa Junction, Cal., September 1, and arrived here September 7, being sent to the foreign branch office.

Postal authorities said the package was addressed to Sig. Virginia Roasco P. C. Ceva, Italy, and the name of the sender was given as Luigi Ghirolfi, of Napa Junction. The package containing the dynamite received much handling during the trip across the continent, being transferred to and from various mail bags. On receipt at the Grand Central terminal it was shot down a long chute and must have struck the bottom with considerable force. The failure to explode is explained by the heavy wrappings of newspapers.

Box Heavily Wrapped.
There was an outer cover of heavy manila paper. Next to this was a heavy layer of newspapers, inside of which was a large cigar box. An Italian almanac, bearing a portrait of President Wilson was stuffed in one end of the box, while two cloth bags each held four sticks of dynamite. The powder was 65 per cent and of the type used for blasting in mines.

The package was held for insufficient postage, but postal authorities have been unable to locate a Luigi Ghirolfi at Napa Junction.

VILLA OFFICERS ARE ARRESTED

Taken Into Custody by
American Soldiers When
They Crossed to
American Side.

San Antonio, Tex., Sept. 24.—General Raoul Madero of Villa's staff, has been arrested by American soldiers near Marfa, Tex. Major General Frederick Funston received this report from Marfa today. With Madero were eight companions, all supposed to be Villa officers, who were also arrested. They were taken into custody when they crossed to the American side of the Rio Grande.

GREECE GETTING READY FOR WAR

London, Sept. 25, 2:03 a. m.—A dispatch to the Exchange Telegraph company from Athens says:
A decree has been promulgated convoking the chamber of deputies on Wednesday to pass an act of martial law and to put at the disposal of the government all the state railways. The transportation of merchandise has been forbidden.

London, Sept. 24, 10 p. m.—As a "measure of elementary prudence," Greece has ordered the mobilization of her naval and military forces. Thus the action of Bulgaria in making military preparations has brought the last remaining Balkan state under arms, for Rumania, while not fully mobilized,

NEW ENVOY FROM SANTO DOMINGO

Senor Aromano Perez Perdomo.

Senor Aromano Perez Perdomo, who has been appointed to succeed Dr. Jimenez, recently arrived from Santo Domingo, where he was secretary of the treasury. The minister will present his credentials within a few days.

ized, for some time has had her troops ready for an emergency. What plans Bulgaria really has in mind, and what Greece and Rumania will do when these plans mature, are still matters for speculation. One thing seems clear, however, Bulgaria and Turkey, for so many years sworn enemies, have composed their differences.

MANY SHIPS ARE SENT TO BOTTOM

Queenstown, Sept. 24, 7:26 p. m.—Thirty-two members of the crew of the British steamer Chancellor, which was sunk yesterday, and the captain of the vessel, were landed here by a rescue steamer this afternoon. The remainder of the crew is reported to have been picked up by a trawler and taken to Kinsale.

When the Chancellor went down the members of the crew made their escape in three lifeboats.

London, Sept. 24, 7:08 p. m.—The British freight steamer Urbino, of 5551 tons gross, from New York, September 12 for Hull, has been sunk. The crew was saved.

Washington, Sept. 24.—The British horse ship Anglo-Columbian was torpedoed and sunk today off Fastnet, after being chased seventy-eight miles by a submarine, according to a message from Consul Frost, at Queenstown. The message said warning was given and time allowed for the crew, six of whom were Americans, to take to the boats. There were no casualties. The ship was bound from Montreal to Liverpool.

Montreal, Sept. 24.—The steamer Anglo-Columbian, torpedoed off Fastnet, left Montreal on September 11. She carried a cargo of 300 cavalry mounts for the British government.

Queenstown, Sept. 24, 11:45 p. m.—The Houston liner Hesione, bound from Liverpool for Buenos Aires, was sunk yesterday. The crew of the vessel escaped in two lifeboats. One of these boats, containing the captain and twenty-two men, was picked up and landed here. The other boat, with eighteen men in it, is reported to have made for the Scilly islands.

The boats lost touch with each other during last night.

The Hesione was a vessel of 3663 tons gross. She was built in 1889 and belonged to the British & South American Steam Navigation company.

NO CLEMENCY FOR GENERAL BLANCO

El Paso, Texas, Sept. 24.—Efforts to secure clemency for General Alvaro Obregon for General Lucio Blanco, arrested recently with General Gutierrez at Saltillo, on an "unjust charge," have failed, according to a message received today. It is believed Blanco and Eulalio Gutierrez were acting as representatives of this faction to General Obregon in presenting a self-initiated peace plan for Mexico.

The message from Obregon as given out by the Carranza consulate is dated "headquarters," thus avoiding publicity of his whereabouts, and follows:
"Former General Lucio Blanco will be tried by the military authorities, which are the only ones entitled to judge his cause. Therefore, I regret that I cannot take any step in the way you suggest."

PARK CHOR WITHDRAWALS.
Park City, Sept. 24.—Through some misunderstanding on the part of the committee on arrangements, the Park City choir withdrew from the Summit county musical contest, which was held in Coalville today. The special train was called off and the members of the choir are sorely disappointed, as they were the winners of the cup last year and have been practicing hard this year, with the hope of again carrying off the honors.

ATTEMPTS MADE TO DESTROY HOTELS BY FIRE

Salt Lake, Sept. 25.—If Hillstrom is executed, it will cost the state of Utah a million dollars a month.—Extract from one of the threatening letters received in connection with the Hillstrom case.

Have the I. W. W. begun a reign of terror in Salt Lake City, as a warning of what will happen if the governor does not intervene to prevent the execution of Joe Hillstrom, convicted murderer?

It transpired yesterday that the extinguishing of every light in the Newhouse hotel Thursday night, when a social function attended by several hundred prominent citizens was in progress, was part of a deliberate plot of set fire to the hotel and create a panic. Five fires were started in the hotel, and were extinguished by the management without any of the guests knowing a thing about it.

A prominent citizen told yesterday of having heard that the threat had been made to destroy one of the most prominent edifices in the city—an edifice whose demolition would stagger the community. The individual who was supposed to have received this threat could not be reached last night.

Dispatches last night from Portland, Ore., where Governor Spry has been attending the water power conference, told of attempts made by Hillstrom sympathizers to see the governor there. John K. Hardy, private secretary to the governor, said he was not surprised when he learned of this. He said that weeks ago, when Governor Spry was attending the conference of governors in Boston, deputations called upon him and insinuated that it would be well for him to see that Hillstrom's life was spared. The threatening letters received by the governor have indicated the nation-wide scope of the movement to prevent Hillstrom's execution, and threatening reprisals upon the governor and the state of Utah if the convicted man is shot.

Two detectives accompany Governor Spry's son to and from the East Side high school every day. Whenever the young man goes, these detectives are not far away. The governor's residence on First avenue is guarded at night by detectives. These precautions were deemed necessary, with the insistence of the threats that have been made in connection with the Hillstrom case. All the threats that have been made have not been made public.

A mysterious fire occurred Thursday morning in the Boyd Park building, in the heart of the business district of the city. The theory that it was started by a lighted cigar was advanced, yet the cigar stub was found to be quite dead and cold, while the flames smoldered in the wood beneath it.

The fires which were started in the Newhouse hotel Thursday night were clearly of incendiary origin, according to the chief of the fire department and the fire insurance underwriters, who made a thorough investigation. These precautions were deemed necessary, with the insistence of the threats that have been made in connection with the Hillstrom case. All the threats that have been made have not been made public.

KIDNAPED MAN AWAITS BROTHER

Emissaries With Ransom of
Two Thousand Dollars in
Gold Despatched Into
Mexico to Meet
Bandits.

El Paso, Texas, Sept. 24.—G. H. Fuller of Los Angeles stated today that he expected his brother, C. P. Fuller, to be released by Mexican bandits so that he would reach El Paso tomorrow. Fuller declined to discuss plans for securing the release of his brother, who was kidnapped by bandits a week ago and taken from his ranch near Villa Ahumada, Chihuahua.

Emissaries with the \$2000 gold demanded as ransom were yesterday reported to have gone into Mexico to meet the bandits.

HEAVY ARTILLERY IS IN FULL ACTION

Paris, Sept. 24, 10:35 p. m.—The following official statement was issued by the French war office tonight:

"The enemy today bombarded our trenches near the village and the castle of Voessinghe (Flanders). In Artois the same activity prevails on both sides on the part of the artillery. The fire of our heavy pieces caused the explosion of an important depot of ammunition near Thelus (north of Arras). A few shells of large caliber have been fired on Arras."

"Between the Somme and the Oise, toward Canny-Sur-Matz and Beuvraignes, we have shelled the enemy's positions and shattered on many points the line of mitrailleuse situations."

"On the front of the Aisne and in Champagne a very violent and reciprocal bombardment is reported. Between the Meuse and the Moselle, at Noosard and Pannes, some German groups were hit by our fire. We also destroyed a blockhouse in the Remenauville section."

The cannonading has been rather serious in Lorraine, where we badly damaged some German organizations; on the Remabols and on the Vezouze, and also in the Vosges in the region of Lingé and Braunkopf."

PEOPLE OF WEALTH IN SOCIAL SCANDAL

Salt Lake, Sept. 15.—After a residence of six months in Idaho in compliance with the divorce laws of that state, at the expiration of which they were both granted decrees which gave them freedom from burdensome matrimonial bonds, John Mayer, Jr., nephew of the late Henry O. Havemyer, American sugar king, and Mrs. Beatrice V. Blackwell, until September 17 the wife of a millionaire attorney and clubman of Morristown, N. Y., were secretly married in Butte Wednesday.

With the performance of the ceremony there, information of which was received in Salt Lake last night there is brought to an end—or fairly begun—a romance which shocked fashionable New York and interested a whole continent.

Both Mr. Mayer and his bride are well known in Salt Lake, as the result of frequent visits here during their residence in Pocotello, where they lived while passing sufficient time to enable them to secure divorces from their respective spouses. They motored to Salt Lake on numerous occasions. Before their return to New York, where they will resume their residence, they will pass a few days here as guests at the Hotel Utah.

Arrival at Pocotello.
A little more than six months ago, Mr. Mayer and Mrs. Blackwell arrived in Pocotello at about the same time. Mrs. Blackwell brought with her a maid, and Mayer was accompanied by a manservant, who also acted as a chauffeur. Their arrival caused a little interest in the Idaho city although at that time the identity of the wealthy visitors was not known. It was at first supposed that they were from Canada.

Mr. Mayer had with him a large touring car, in which the couple made daily trips into the country and several journeys to Salt Lake. It was after a trip to this city that the identity of the couple first became known and when Mr. Mayer was asked if he and Mrs. Blackwell contemplated divorce—and later marriage—the first news of their plans came out. Mr. Mayer stated then that he had made some large mining investments in Idaho.

WM. E. COREY IN STEEL BUSINESS

New York, Sept. 24.—William E. Corey, former president of the Steel trust from 1903 to 1909, is to return to the steel business as the head of the steel combination now being formed to rival the Bethlehem Steel corporation, according to a banking authority.

A syndicate of prominent New York capitalists, among them are mentioned Percy Rockefeller, E. C. Converse of the Bankers' Trust company and National City bank interests, are now proceeding with the acquisition of the properties that are now being put into the new combination.

As a preliminary step, this syndicate, which is headed by William A. Read, has acquired the Midvale Steel company, one of the largest independent steel companies in the United States. The purchase price is understood to have been about \$19,000,000, and payment will be made in cash.

Coincident with the sale of the Midvale company, dispatches from Philadelphia and rumors in the financial district said that the Cambria Steel company, another large independent steel company, was being sold and was expected to be merged with the Midvale. William H. Donner, president of the Cambria, said that the deal had not been negotiated. He would not make any further comment.

Owing to the enormous demand for munitions by the belligerents and a general recognition in the financial district that the United States will have to enlarge its military and naval defenses, bankers and heads of large corporations in Wall street have been predicting that the steel companies of this country would be totally inadequate for the fulfillment of the demands that would be made for ordnance.

NAVAL POLICY OF GERMAN CHANGED

Berlin, via Courier to the Frontier and London, Sept. 25, 5:05 a. m.—Admiral von Holtzendorff, former commander of the German high seas fleet, now is head of the naval general staff, succeeding Vice Admiral Bachmann. Rear Admiral Behncke, vice-chief of the naval general staff, also is out and it is understood his successor will be Admiral von Koch, inspector of marine instruction at the naval academy, although this appointment is unconfirmed.

The changes, which were made some time ago, took place in connection with the modification in the submarine policy signified by Ambassador von Bernstorff's declaration at Washington. The displayed admirals, it is understood, were opposed to the modifications made effective at that time.

An Important Branch.
The naval general staff in war time is supposed to be the all-important branch of naval department. It is in charge of all operation of the fleets and directs its strategic plans and dispositions and issues the orders under which all units of the navy—the battle fleet, cruisers, submarines and aircraft—operate. In time of peace it was overshadowed by Admiral von Tirpitz and the ministry of marine owing to the dominant personality of the sea veteran whose name is most closely connected with the development of German sea power.

Even in the stress of war von Tirpitz has been able to exercise considerable influence upon the naval policy. The chief, von Holtzendorff, is one of the big men of the navy. Emperor William gave him command of the high seas fleet at the outset of the dreadnought era when the advent of the all-big gun type of battleship made Germany a dangerous rival of Great Britain and has retained that command until just before the war began, when he was succeeded by Admiral von Ingenohl, who gave way in turn last spring to Admiral von Pohl.

New Chief Typical Sea Dog.
The new chief of the naval staff, with his bushy, snow white beard, his square thick-set frame and his frank, positive manner, is a typical seadog. He carries marks of force written all over him—an impression which is heightened by his deliberate, well-weighted but thoroughly frank speech and enjoys the respect of naval officers generally.

**MOYER TRYING TO
END MINE STRIKE**
Clifton, Ariz., Sept. 24.—Charles F. Moyer, president of the American Federation of Miners, arrived here tonight to confer with leaders of the local strike movement, which has resulted in 8000 miners laying down their tools. The mining companies have refused recognition to the union and have declined to confer with representatives of the organization.

President Moyer advised the strikers not to ask recognition and announced that he could end the differences within forty-eight hours.

**PRESS OF PARIS ADVISES
ACTION BY THE ALLIES**
Paris, Sept. 24.—The Temps, the Journal des Debats and Liberte call for energetic action by the entente allies in view of Bulgaria's bellicose attitude. The Journal des Debats says:

"A declaration must be made by Sofia and every enterprise directed against Serbia must be considered by the allies as directed against themselves. The means to give force to

this declaration should immediately be employed. Once this is done, Bulgaria will be cut off from all exterior communication, except with Turkey, if the big Austro-German army is not ready to cross the Danube and effect a junction, with General Saroff's troops. The new attack by Bulgaria, although a surprise, is condemned to disaster. Rumania and Greece will not remain passive for the crushing of Serbia will also be their ruin."

PREPARES FOR BUILDING.
Spanish Fork, Sept. 24.—Commercia will be cut off from all exterior communication, except with Turkey, if the big Austro-German army is not ready to cross the Danube and effect a junction, with General Saroff's troops. The new attack by Bulgaria, although a surprise, is condemned to disaster. Rumania and Greece will not remain passive for the crushing of Serbia will also be their ruin."

Mr. Webster said that as soon as the railroad spur from the Denver & Rio Grande track to the factory site is completed the work of building will commence.

**CHARGES FILED FOR
ATTACK ON LOFTIS**
Salt Lake, Sept. 25.—Complaints were filed in Justice Martin's court yesterday by Frank Connel, charging Wilbert Lahey with assault with a deadly weapon and Thomas Manning with assault and battery.

Lahey and Manning were arrested in Midvale Thursday night at the Rio Grande depot by the town marshal and a deputy sheriff immediately following an attack upon Conductor John D. Loftis, who had put them off his train there.

Resenting ejection from the train, Lahey, it is said, pulled his knife and stabbed Loftis. Manning aided in the assault. All were brought to Salt Lake, the injured man being taken to his home, 845 Green street, and the others to the county jail.

Conductor Loftis is not seriously hurt. His wound is in the plural capacity, and unless some complication should set in, he is expected to be out and back on his run in a short time.
